BABY BRAIN RECOVERY STUDY

WE INVITE YOU!

HELP US LEARN MORE ABOUT HOW
CHANGES IN THE BRAIN AFTER AN EARLY
BRAIN INJURY RELATE TO SENSORY AND
MOTOR DEVELOPMENT

WHO CAN PARTICIPATE?

Babies who are 0-6 months old with a history of early brain injury, accompanied by a parent/legal guardian

Families will receive up to \$450 for participation during the first two years of their child's life. Support for travel is available for participants.

WHY?

Our goal is to inform future therapies and treatments for infants with brain injuries.

WHERE?

This study is led by Dr. Bernadette Gillick in the Department of Pediatrics at the Waisman Center, 1500 Highland Ave, Madison WI.

We offer weekday, evening, and weekend study visits to accommodate family schedules.
