

# Research Study:

Tell us about your experiences  
with rehabilitation after your  
child's brain injury

The purpose of our study is to understand the **caregiver perspective** on use of rehabilitation services after pediatric traumatic brain injury. We will use this information to develop a new measure of rehabilitation use.

## Are you Eligible?

- Primary caregiver of a child aged **0-18** years who was hospitalized for **brain injury within the last 3 years**
- Caregiver lives with child
- Caregiver age  $\geq 18$  years
- Caregiver speaks & reads English

## Participation

If you agree to participate in our study, we would ask you to participate in a **1-1.5 hour** phone or Zoom interview at a time that is convenient for you. During the interview you would provide information on the following:

- Your experiences with you child's rehab services
- How well you think you can report the type, amount, and quality of your child's rehab services

Participants will receive a \$30 gift card for study completion
